

Voter Extract Disk File Layout updated July 2017

1. Content: The following extract files are created monthly in tab-delimited ASCII text file format and specifically contain:

- **Official voter registration information.** Data is extracted from the Florida Voter Registration System and includes information on voters who are officially registered as of the end of the prior month. All information is included except limited in those cases in which a registered voter requested exemption from public disclosure as permitted per Section 119.071, Fla. Stat. (*Section 98.0981(1)(b), Fla. Stat.*).
- **Unofficial voting history information.** Data is extracted from independently submitted reports from the 67 county supervisors of elections capturing voting history at a fixed point in time. Therefore, in some cases voter information numbers found in a county's voting history file do not have a corresponding information number in the county's voter registration file because the voter has moved to another county after voting. You must look to the voter's registration information in that county-specific voter registration file.

DISCLAIMER

Information on registered voters who are participants in the Attorney General's Address Confidentiality Program pursuant to 741.401 – 741.465, Fla. Stat., is not included in this report.

The Division cannot warrant the content or accuracy of the unofficial voting history extract. The most accurate and current official voting history resides with the supervisors of elections. Any discrepancies in this extract must be resolved in favor of the official voting records in the county where the voter actually voted.

2. Contact:

- For any questions regarding the **official voter registration**, contact the Florida Division of Elections, Bureau of Voter Registration Services at 500 South Bronough Street, Room 316, Tallahassee, Florida 32399-0250, or at 850.245.6590.
- For questions regarding a voter's **unofficial voting history** please contact the Supervisor of Elections (<http://dos.elections.myflorida.com/supervisors>) in the county where the voter has voted, or in the case of a voter who has moved, the counties where the voter voted over time.

3. Opening Files:

- These zipped files do not open automatically. You must use a text editor, such as *NotePad* or *WordPad*, or they can be imported into a database utility, such as *MS Access* or *FoxPro* by **renaming extensions to .txt**. The naming convention for these files is as follows:

FILE NAMING CONVENTION		
File Type	Individual File Name	Zip File Name
Voter Extract	CountyCode_YYYYMMDD.txt	Voter_Extract_YYYYMMDD.zip
Voter History	CountyCode_H_YYYYMMDD.txt	Voter_History_YYYYMMDD.zip

4. Layout and Code Tables:

VOTER REGISTRATION EXTRACT FILE				
	Field Name	Max Length	Valid Codes / Format	Protected Data <small>*For voters who have requested public records exemption.</small>
