Introduction

The Electronic Filing System (EFS) is located on the internet at https://efs.dos.state.fl.us. Each candidate or organization required to file reports with the Division of Elections (DOE) is provided an identification number. Access to the system is gained by inputting the DOE assigned Identification (ID) Number and Password. The candidate is provided an initial password to gain entry to the EFS. Upon logging into the system for the first time, the user will be prompted to change it.

Campaign reports are created by directly entering data into the DOE EFS or by uploading data from external systems that meet DOE electronic file specifications.

A report goes through a three step process before it is filed with the DOE:

- **FIRST**, data is created or uploaded to the system. At this point it is a pending report.
- **SECOND**, the user submits the pending report for review by the system for correctness and completeness. Errors can be corrected in pending reports via the EFS or by uploading additional data.
- **THIRD**, the report is filed. Reports are filed using personal identification numbers (PINs), which are considered the same as a person's signature on the report.

Any changes to be made to a filed report must be done by filing an amendment. Amendments can be done directly through the EFS or by file upload.

The Division of Elections anticipates that this guide will assist you with timely filing all reports required by Chapter 106, Florida Statutes. However, if you have any questions or comments please contact the Division of Elections at:

Department of State  
Division of Elections

Report Credit Card Activity

Pursuant to section 106.125, Florida Statutes, only statewide candidates (Governor and Cabinet) may obtain campaign credit cards. The credit cards may be used only for travel related expenses.

Each time a credit card is used, there will be an entry in Other Distributions documenting the activity. Credit card activity is reported during the reporting period that it occurs. This may be, but is not always, the same reporting period that the expenditure for the credit card payment occurs. Once the expenditure (credit card payment) is made, the Other Distributions (credit card activity) must be “linked” to the Expenditure.

Enter Credit Card Activity in Other Distributions:

Each time the credit card is used, create an “Other Distributions” record (See instructions beginning on page 20.) The date for the record will be the date of the credit card purchase. For “Distribution Type,” choose Credit Card Purchase.

Enter all information and then click Save Changes. Repeat the process for each credit card purchase.
Enter Credit Card Payment in Expenditures:

To document payment of the credit card bill, create an “Expenditures” record for the payment. (See page 17 for instructions on creating an expenditures record.) For Expenditure Type, select **Credit Card Payment**.

The purpose would be the month of the credit card statement. Example: November Statement.

Enter the amount of the Expenditure in the **Amount** field.

Enter all information and then click **Save Changes**.

The screen will refresh. For **Credit Card – Monthly Activity Amount**, enter the total amount of credit card purchases for that particular statement period. The “Amount” field and “Credit Card -Monthly Activity Amount” field should always be the same.

Click **Save Changes**.
Link the Credit Card Payment to the Credit Card Transactions:

On the Expenditure sequence that documents the credit card payment, click on Distribution Links.

Click on the radio button “Not Linked” This will take you to a listing of all credit card purchases that have not been yet been linked to a credit card payment.
Click **Create Link** by each of the credit card purchases that you wish to link to the credit card payment. Click on **Calc Distr.** to determine the total amount of credit card activity that is currently linked to a payment. After all credit card activity has been linked, the totals in the “Amount,” “Credit Amt,” and “Cal Distr.” fields should be equal.

To verify the activity that has been linked to an Expenditure, go to the Expenditure and click on **Distribution Links**.

Everything that is currently linked to this Expenditure will be listed. If you have linked a purchase in error, click on **Remove Link** (for pending links) or **Delete Tranx** (for filed links) to remove the link.
Report Prepaid Distributions

Prepaid Distributions are lump sum payments to one entity or person who then distributes the funds to other entities or individuals.

**Example:** Payment to a media consultant who will then make disbursements to various media such as a newspaper, radio or television station. The Expenditure entry documents the lump sum payment. The “Other Distribution” entries will indicate how the media consultant is spending the lump sum payment. Items will be reported and linked to the prepaid expenditure as they occur.

**Enter Prepaid Amount in Expenditures:**

Create an Expenditure record for the lump sum payment (See page 17 for instructions on creating an expenditure record.) For Expenditure Type, choose **Prepaid Distribution**.

Enter all information and then click **Save Changes**. The screen will refresh as shown below:
**Enter Disbursements of the Payment in Other Distributions and Link to Expenditure:**

As the funds are disbursed, Other Distribution records (see page 20 for instructions on creating an Other Distributions record) are created and linked to the original expenditure.

For Distribution type, select **Prepaid Distribution**.

Enter all information and then click **Save Changes**. The screen will refresh and **Link Exp** will appear.

Click on **Link Exp**.
Determine which entry to link the distribution to the expenditure and click on \textit{Link to Exp}.  

To remove the link, click on \textit{Remove Link}.  

For each disbursement of the prepaid expenditure, create an Other Distributions record. Link each distribution record to the original pre-paid expenditure.
Report Reimbursements

Reimbursements are used to report authorized expenses incurred in connection with the campaign that are not otherwise reported as direct expenditures. Each time a candidate or other person authorized to make an expenditure on behalf of the campaign makes an expenditure that will be reimbursed, there must be an entry reported for the purchase in “Other Distributions.” The “Other Distribution” (the purchase) may be, but is not always, reported during the same reporting period as the “Expenditure” (the check written for reimbursement). Once the “Expenditure” is reported, it must be linked to the “Other Distribution.”

Enter Reimbursement Activity in Other Distributions:

For each purchase that will be reimbursed, create an “Other Distributions” record. (See page 20 for instructions on creating an Other Distributions record.) For Distribution Type, choose Reimbursement.

Enter all information and click Save Changes.
Enter Reimbursement Payment in Expenditures:

To document the payment to reimburse authorized expenditures, create an Expenditure record. (See page 17 for instructions on creating an expenditure record.) For Expenditure Type, select **Reimbursement**.

Enter all information and click **Save Changes**.

**Link the Purchases to the Expenditure for Reimbursement**

On the Expenditure sequence that documents the reimbursement payment, click on **Distribution Links**

Click on the radio button “Not Linked.”
This will take you to a listing of all reimbursement expenses that have not yet been linked to a reimbursement payment.

Click on **Create Link** by each purchase that will be linked to the reimbursement payment.

To verify the activity that is linked to a reimbursement payment, click on **Go to Expenditure**.
Click on Distribution Links.

Everything that is currently linked to this Reimbursement Expenditure will be listed.

If you have linked a purchase in error, click on Remove Link (for pending links) or Delete Tranx (for filed links) to remove the link.
