General Records Schedule GS8 for Fire/Rescue Departments

GENERAL RECORDS SCHEDULE
GENERAL INFORMATION AND INSTRUCTIONS

FOREWORD

The general records schedules established by the Department of State are intended for use by state, county, city and special district public records custodians. If you are unsure of your organization’s status as a “public agency,” consult your legal counsel and/or the Florida Attorney General’s Office for a legal opinion. The Department of State publishes the following general records schedules:

- GS1-SL State and Local Government Agencies
- GS2 Law Enforcement, Correctional Facilities and District Medical Examiners
- GS3 Election Records
- GS4 Public Hospitals, Health Care Facilities and Medical Providers
- GS5 Public Universities and Colleges
- GS7 Public Schools Pre-K-12 and Adult and Career Education
- GS8 Fire Departments
- GS9 State Attorneys
- GS11 Clerks of Court
- GS12 Property Appraisers
- GS13 Tax Collectors
- GS14 Public Utilities
- GS15 Public Libraries

All Florida public agencies are eligible to use the GS1-SL, which provides retention periods for the most common administrative records, such as routine correspondence and personnel, payroll, financial and legal records. General records schedules GS2 through GS15 are applicable to program records of specific functional areas, such as elections administration, tax collecting or law enforcement, each of which has unique program responsibilities and thus unique records retention requirements. The GS2 through GS15 should be used in conjunction with the GS1-SL to cover as many administrative and program records as possible.

The retention periods set forth in the general records schedules are based on federal and state laws and regulations, general administrative practices and fiscal management principles. Please note that these are minimum retention periods; public agencies may retain their records longer at their discretion. In fact, certain accreditation committees may have standards that require longer retention periods. Contact your accrediting organization for more information on their requirements. In addition, federal, state or local laws and regulations regarding recordkeeping and records retention for specific agencies or specific types of records might require a longer retention than indicated in this general schedule. Agencies should be aware of all laws and regulations relating to their records and recordkeeping requirements. However, remember that a public agency is not permitted to reduce the retention periods stated in a general records schedule.

For additional information on records retention and disposition, please refer to The Basics of Records Management handbook, which, along with all Florida general records schedules, is available on the Department of State’s Records Management website at info.florida.gov/records-management.

I. STATUTORY AUTHORITY

This general records schedule is issued by the Department of State's Division of Library and Information Services in accordance with the statutory provisions of Chapters 119 and 257, Florida Statutes. This schedule covers records created, received or maintained by fire/rescue departments.

Chapter 119, Florida Statutes, defines the terms "public records," "custodian of public records" and "agency," as well as the fundamental process by which disposition of public records is authorized under law.

Chapter 257, Florida Statutes, establishes the Florida State Archives and the Records and Information Management Program under the direction of the Division of Library and Information Services and specifically provides for a system for the scheduling and disposition of public records. Chapter 257 also authorizes the Division to establish and coordinate standards, procedures and techniques for efficient and economical records creation and recordkeeping, and it requires all agencies to appoint a Records Management Liaison Officer (RMLO).

II. DETERMINING RETENTION REQUIREMENTS

In determining public records retention requirements, four values must be considered to ensure that the records will fulfill their reason for creation and maintenance: administrative, legal, fiscal and historical. These four values have been evaluated in depth to determine the retention requirements of the records listed in this general records schedule.

There are two particular financial factors that may impact the retention period of an agency's records:

A. Audits - The term "audit" is defined by Section 11.45, Florida Statutes, as encompassing financial, operational and performance audits. The Florida Auditor General's Office describes these audits as follows:

1. Financial audit means an examination of financial statements in order to express an opinion on the fairness with which they are presented in conformity with generally accepted accounting principles and an examination to determine whether operations are properly conducted in accordance with legal and regulatory requirements. Financial audits must be conducted in accordance with auditing standards generally accepted in the United States and government auditing standards as adopted by the Florida Board of Accountancy. Audit requirements for state financial assistance provided by State of Florida agencies to nonstate entities are established by the Florida Single Audit Act, Section 215.97, Florida Statutes. When applicable, the scope of financial audits shall encompass the additional activities necessary to establish compliance with the Single Audit Act Amendments of 1996, 31 U.S.C. ss. 7501-7507, and other applicable federal laws.

2. Operational audit means an audit conducted to evaluate management's performance in establishing and maintaining internal controls, including controls designed to prevent and detect fraud, waste and abuse, and in administering assigned responsibilities in accordance with applicable laws, administrative rules, contracts, grant agreements and other guidelines. Operational audits must be conducted in accordance with government auditing standards. Such audits examine internal controls that are designed and placed in operation to promote
and encourage the achievement of management's control objectives in the categories of compliance, economic and efficient operations, reliability of financial records and reports, and safeguarding of assets, and identify weaknesses in those internal controls.

3. Performance audit means an examination of a program, activity or function of a governmental entity conducted in accordance with applicable government auditing standards or auditing and evaluation standards of other appropriate authoritative bodies. The term includes an examination of issues related to a number of defined criteria.

The Records Management Program does not track or maintain information on which audits apply to which records in which agencies. Different agencies are subject to different types of audits at different times, and each agency is responsible for knowing what audits might be conducted and retaining needed records for that purpose. For instance, some agencies might be subject to the Federal Single Audit Act, while others are not. In general, any records relating to finances or financial transactions might be subject to audit.

Audits may be conducted by the Florida Auditor General, independent public accountants, or other state or federal auditors as well as grant funding agencies and national or statewide professional accreditation or certification groups. Your finance office, your legal office and the Auditor General's Office are good sources of information regarding which specific records your agency should retain for audit purposes.

Because conceivably any record in any agency might be required for audit, we are no longer including the “provided applicable audits have been released” language on selected retention items. Each agency is responsible for ensuring that any and all auditable records are maintained for as long as necessary to meet that agency’s audit requirements.

B. Grants - Any public agency receiving local, state or federal grant money will need to be familiar with grantor agency requirements.

III. SCHEDULING AND DISPOSITION OF PUBLIC RECORDS

The procedures for scheduling and disposition of public records, which are applicable to all public agencies, consist of two separate but related actions:

A. Establishing a Records Retention Schedule - A retention schedule describing the records and setting the minimum retention period is required for each record series. A record series, as defined in Rule 1B-24, Florida Administrative Code, is “a group of related public records arranged under a single filing arrangement or kept together as a unit (physically or intellectually) because they consist of the same form, relate to the same subject or function, result from the same activity, document a specific type of transaction, or have some other relationship arising from their creation, receipt, or use.” Examples of series that agencies might maintain are Personnel Files, Client Case Files, Project Research Files, Equipment Maintenance and Repair Records, and Procurement Files. Each record series might contain records in a variety of forms and formats that collectively document a particular program, function or activity of the agency.

The records retention schedule officially establishes the minimum length of time that the record series must be retained. This retention applies to the agency’s record (master) copy of the records – those public records specifically designated by the
custodian as the official record. The retention period for duplicates – copies of
records that are not the official record of an agency – is always “Retain until
obsolete, superseded, or administrative value is lost” (“OSA”) unless otherwise
specified. Therefore, we are no longer including the OSA retention statement for
duplicates in each retention item.

1. **General records schedules** establish retention requirements for records
documenting administrative and program functions common to several or all
government agencies, such as personnel, accounting, purchasing and general
administration. General records schedules can cover a significant proportion of
an agency’s record series. The **General Records Schedule GS1-SL for State and
Local Government Agencies** can be used by all state and local agencies in
determining their records retention requirements.

Certain agencies can use other general records schedules in conjunction with
the GS1-SL. For example, along with using the GS1-SL, public universities and
colleges should use the **GS5 for Public Universities and Colleges** for program
records unique to their functions and activities. Similarly, along with using the
GS1-SL, State Attorneys should use the **GS9 for State Attorneys** and property
appraisers should use the **GS12 for Property Appraisers**. Please see the
Foreword for a complete list of general records schedules, and contact the
Records Management Program to verify which general records schedules are
appropriate for use by your agency.

If a similar record series is listed in two general record schedules, the schedule
with the longer retention requirement shall take precedence.

REMEMBER: The retention period stated in the applicable schedule is the
minimum time a record must be maintained. If two or more record series are
filed together, the combined file must be retained through the longest retention
period of those records.

2. **Individual records schedules** establish retention requirements for records that
are unique to particular agencies. These schedules are used for records that are
not in a general schedule. Individual records schedules may only be used by the
agency for which they were established.

To establish an individual records schedule, an agency must submit a Request
for Records Retention Schedule, Form LS5E-105REff.2-09, to the Records
Management Program for review and approval. This “105” form is available on
the Records Management website at [info.florida.gov/records-

Records become eligible for disposition action once they have met the retention
requirements specified in an established retention schedule and any other
applicable requirements (e.g., litigation). The individual schedule remains
effective until there is a change in series content or until other factors are
introduced that would affect the retention period, at which time a new individual
records retention schedule should be submitted for approval. If a new general
records schedule is later established that requires an equal or longer retention
period for the same records, that general records schedule supersedes the
individual records schedule. If you have an individual schedule that requires a
longer retention, contact the Records Management Program for guidance.

B. Final Disposition of Public Records - Section 257.36(6), Florida Statutes, states that “A
public record may be destroyed or otherwise disposed of only in accordance with retention schedules established by the division.” This means that all records, regardless of access provisions, must be scheduled before disposition can occur (see Sections 119.07-119.0714, Florida Statutes, regarding access provisions). Agencies must identify an appropriate general records schedule or individual records schedule for any records being disposed of. If an appropriate retention schedule for the records does not exist, one must be established by following the procedures listed above for individual records schedules.

Agencies must maintain internal records disposition documentation, including retention schedule number, retention schedule item number (including, when needed, the suffix ‘a’ for the record copy or ‘b’ for duplicates), record series title, inclusive dates, volume in cubic feet of physical records destroyed (for electronic records, record the number of bytes and/or records and/or files if known, or indicate that the disposed records were in electronic form), and disposition action (manner of disposition) and date. A form titled Records Disposition Document, which is recommended for use in documenting records disposition, is available on the Records Management website at info.florida.gov/records-management/forms-and-publications. Agencies must maintain this documentation as a permanent record but should not submit it to the Records Management Program for review or approval.

IV. DISTINGUISHING BETWEEN THE DIFFERENT TYPES OF RETENTION PERIOD REQUIREMENTS

When trying to determine when records are eligible for disposition, agencies must be aware of the different types of retention requirements. For instance, records with a retention of “3 anniversary years” will have a different eligibility date from records with a retention of “3 fiscal years” or “3 calendar years.”

A. Anniversary Year - from a specific date

Example: 3 anniversary years

If a record series has a retention of “3 anniversary years,” the eligibility date would be 3 years after the ending date of the series.

B. Calendar Year - January 1 through December 31

Example: 3 calendar years

If a record series has a retention of “3 calendar years,” the eligibility date would be 3 years after the end of the calendar year of the last record in the series.

C. Fiscal Year - depends on agency type

- State government agencies, school districts - July 1 through June 30

- Local government agencies - October 1 through September 30

Example: 3 fiscal years

If a record series has a retention of “3 fiscal years,” the eligibility date would be 3 years after the end of the fiscal year of the last record in the series.
D. Months or Days

Examples: 6 months; 90 days

If a record series has a retention of “6 months,” the eligibility date would be 6 months after the ending date of the record series.

If a record series has a retention of “90 days,” the eligibility date would be 90 days after the ending date of the record series.

E. Retain until obsolete, superseded, or administrative value is lost (OSA)

With this retention, a record is eligible for disposition whenever it is no longer of any use or value to the agency or when it has been replaced by a more current record. The retention could vary from less than one day to any length of time thereafter.

F. Triggering Event

With this retention, records become eligible for disposition upon or after a specific triggering event.

Examples:

Retain until youth turns age 25.

Retain for life of the structure.

3 anniversary years after final action.

Example: Calculating Eligibility Dates

If the ending date for a specific record series is 7/31/2007, when are these records eligible for disposition under different retention period types?

<table>

V. ARCHIVAL VALUE

The State Archives of Florida identifies records potentially having enduring historical, administrative, legal or fiscal value that may merit permanent preservation. If a record series description states, “These records may have archival value,” the State Archives has identified these records as potentially archival. While this statement does not currently appear in any General Records Schedule GS8 for Fire/Rescue Departments items, agencies preparing to dispose of records that have met their required retention should carefully consider the potential historical research value of those records. Some records might have enduring value to your community as evidence of the interactions between government and citizens and as sources of
information about local government, society and culture. Records of historical value to your community should be preserved locally for the benefit of historians and other researchers and could be offered to your city or county archives, historical records program or public library. Records documenting significant health or public safety issues of statewide or broader importance can be offered to the State Archives. Assistance in determining archival value is available from State Archives staff at 850.245.6700, option 1, then option 3.

VI. ELECTRONIC RECORDS

Records retention schedules apply to records regardless of the format in which they reside. Therefore, records created or maintained in electronic format must be retained in accordance with the minimum retention requirements presented in these schedules. Printouts of standard correspondence are acceptable in place of the electronic files. Printouts of electronic communications (email, instant messaging, text messaging, multimedia messaging, chat messaging, social networking, or any other current or future electronic messaging technology or device) are acceptable in place of the electronic files, provided that the printed version contains all date/time stamps and routing information. However, in the event that an agency is involved in or can reasonably anticipate litigation on a particular issue, the agency must maintain in native format any and all related and legally discoverable electronic files.

VII. FACTORS THAT MAY INFLUENCE THE DISPOSITION OF RECORDS

A. Litigation - When a public agency has been notified or can reasonably anticipate that a potential cause of action is pending or underway, that agency should immediately place a hold on disposition of any and all records related to that cause. Your agency’s legal counsel should inform your Records Management Liaison Officer and/or records custodian(s) when that hold can be lifted and when the records are again eligible for disposition.

B. Public Records Requests - According to Section 119.07(1)(h), Florida Statutes, the custodian of a public record may not dispose of a record “for a period of 30 days after the date on which a written request to inspect or copy the record was served on or otherwise made to the custodian of public records by the person seeking access to the record. If a civil action is instituted within the 30-day period to enforce the provisions of this section with respect to the requested record, the custodian of public records may not dispose of the record except by order of a court of competent jurisdiction after notice to all affected parties.”

C. Accreditation Standards - Some public agencies receive national or statewide accreditation or certification by professional societies, organizations and associations. Examples include the Joint Commission on the Accreditation of Healthcare Organizations, the Commission on Accreditation for Law Enforcement Agencies and COLA (formerly the Commission on Office Laboratory Accreditation). In an effort to enhance the professionalism of their members, these groups may place additional requirements on public agencies beyond those mandated under state or federal law. Agencies may therefore choose to maintain their records for a longer period of time than required by established records retention schedules in order to meet accreditation standards.

D. Records in Support of Financial, Operational or Performance Audits - These records should be retained in accordance with the following guidelines provided by the Florida Office of the Auditor General:
Records must be retained for at least three fiscal years (most financial records must be retained for a minimum of five fiscal years in accordance with guidelines of the Department of Financial Services and the Office of the Auditor General). If subject to the Federal Single Audit Act (pursuant to 2CFR200.501(a)) or other federal audit or reporting requirements, records must be maintained for the longer of the stated retention period or three years after the release date of the applicable Federal Single Audit Act or completion of other federal audit or reporting requirements. Finally, if any other audit, litigation, claim, negotiation, or other action involving the records has been started before the expiration of the retention period and the disposition of the records, the records must be retained until completion of the action and resolution of all issues arising from it. However, in no case can such records be disposed of before the three fiscal year minimum.

E. Federal, state or local laws and regulations regarding recordkeeping and records retention for specific agencies or specific types of records might require a longer retention than indicated in this general schedule. Agencies should be aware of all laws and regulations relating to their records and recordkeeping requirements.

VIII. REFORMATTING STANDARDS AND REQUIREMENTS

Unless otherwise prohibited by law or rule, the record copy of public records as defined by Section 119.011(12), Florida Statutes, may be reformatted to microfilm or electronic form as long as the requirements of Rule 1B-26.003 or 1B-26.0021, Florida Administrative Code, are met.

A. Electronic Recordkeeping is defined in Rule 1B-26.003, Florida Administrative Code, which provides standards and guidelines for creation and maintenance of record (master) copies of public records in electronic form.

B. Microfilm Standards are defined in Rule 1B-26.0021, Florida Administrative Code, which provides standards for microfilming of public records to ensure that the film, photography methods, processing, handling and storage are in accordance with methods, procedures and specifications designed to protect and preserve such records on microfilm.

IX. RECORDS VOLUME CONVERSION TO CUBIC FOOT MEASUREMENTS

| Cassette tapes, 200 | 1.0 cubic foot |
| Letter-size file drawer | 1.5 cubic feet |
| Legal-size file drawer | 2.0 cubic feet |
| Letter-size 36" shelf | 2.0 cubic feet |
| Legal-size 36" shelf | 2.5 cubic feet |
| Magnetic Tapes, 12 | 1.0 cubic foot |
| 3 x 5 cards, ten 12" rows | 1.0 cubic foot |
| 3 x 5 cards, five 25" rows | 1.0 cubic foot |
| 4 x 6 cards, six 12" rows | 1.0 cubic foot |
| 5 x 8 cards, four 12" rows | 1.0 cubic foot |
| 16mm microfilm, 100 rolls | 1.0 cubic foot |
| 35mm microfilm, 50 rolls | 1.0 cubic foot |
| Map case drawer, 2” x 26” x 38” | 1.1 cubic feet |
| Map case drawer, 2” x 38” x 50” | 2.2 cubic feet |
| Roll storage, 2” x 2” x 38” | 0.1 cubic foot |
| Roll storage, 2” x 2” x 50” | 0.2 cubic foot |
| Roll storage, 4” x 4” x 38” | 0.3 cubic foot |
Roll storage, 4" x 4" x 50"
0.5 cubic foot
(One roll of microfilm contains approximately 1.0 cubic foot of records.)

Cubic foot calculation: (Length" x Width" x Height") ÷ 1,728 = cubic feet
RECORDS RETENTION SCHEDULES

ACCREDITATION RECORDS: FIRE/RESCUE DEPARTMENT  
Item #71  
This record series consists of documentation used to demonstrate compliance with the professional standards established by the Commission on Fire Accreditation International (CFAI). The series may include, but is not limited to, rules and regulations, standard operating procedures, internal reports, forms, correspondence, tabulations, a formal written assessment statement of the agency's compliance or noncompliance, and subsequent follow-up reports.  
RETENTION: 3 anniversary years after accreditation.

ACTIVITY LOGS: FIRE/RESCUE DEPARTMENTS  
Item #1  
This record series consists of logs documenting activities occurring within the station. The records document such activities as responses to alarms, citizen visits or tours, number of blood pressure checks given, equipment cleaned and refueling efforts. The purpose of this log is to update the next shift of all activities occurring prior to their arrival on duty. This series does not include Activity Reports, which are covered under General Records Schedule GS1-SL for State and Local Government Agencies, Item #124, “OPERATIONAL AND STATISTICAL REPORTS.”  
RETENTION: 1 anniversary year.

ALARM REPORTS: FIRE (NON-ARSON)  
Item #51  
This record series consists of alarm reports for non-arson fires such as those caused by faulty wiring. The series may include, but is not limited to, the location, date, time, equipment used, hydrant used, damage estimate of the fire, deaths which might result from the fire, firefighter reporting the fire, and any comments made concerning the details of the fire.  
RETENTION: 7 anniversary years after date of fire.

BRUSH CLEARANCE RECORDS  
Item #53  
This record series documents the clearing of brush or vegetation from property to comply with city or county code or ordinance regarding brush or weed clearance designed to reduce the amount of property loss due to wildfires. The series may include, but is not limited to, notices to land owners, photographs of the property, work orders, correspondence, restitution estimates and copies of billing records. See also the applicable CODE VIOLATION RECORDS item in the General Records Schedule GS1-SL for State and Local Government Agencies.  
RETENTION: 3 anniversary years after final action.

DRILL RECORDS: FIRE/SAFETY  
Item #59  
This record series documents fire and safety drill exercises at schools, businesses and other establishments. The series may include, but is not limited to, reports of fire department employee attendance, time and date of the drills, name of the agency conducting the drills, the outcome and comments on areas for improvement.  
RETENTION: 5 fiscal years.

FALSE ALARM REPORTS  
Item #3  
This record series consists of information pertaining to false alarms, outcries or reports of fire. The series may include, but is not limited to, the date and time of the report, the location, any identifying characteristics of the caller, the number of responding units, and the time it was determined to be a false report.  
RETENTION: 4 anniversary years.

FIRE EXPLORERS RECORDS  
Item #72  
This record series documents Fire Explorers programs designed to educate and train teens and young adults for a career in firefighting. The series documents program activities and participants and may include such records as applications, parental consent forms, meeting attendance records, examination records, background checks, program rules and regulations, fee payment records, and records of participation in community service activities.  
RETENTION: 5 fiscal years after completion of program.
FIRE HYDRANT RECORDS
Item #25
This record series documents the installation, history and removal of fire hydrants. The records document such information as the location of the hydrant, the make, hydrant size, valve size, dates inspected and copies of any work orders regarding the hydrant. See also “FIRE HYDRANT RECORDS: FLOW TESTS.”
RETENTION: 4 anniversary years after life of hydrant.

FIRE HYDRANT RECORDS: FLOW TESTS
Item #73
This record series consists of fire hydrant flow test reports documenting water flow calculations of fire hydrants. Tests are conducted by the agency prior to the construction of a new property or prior to a change in the use of an existing property. These test reports indicate whether there is sufficient water protection from the nearest hydrant to the proposed project. These reports contain such information as water flow measurements, proposed project information, dates of tests and location of hydrants.
RETENTION: 4 anniversary year.

FIRE SAFETY INSPECTION RECORDS: NO VIOLATIONS
Item #74
This record series documents fire safety inspections on businesses or commercial buildings in cases where no violations are found, including new inspections, re-inspections or following a complaint. The records may consist of, but are not limited to, the owner's contact information; the type of business; information about the fire suppression and notification devices; occupant load; information on compliance; the inspector's name and number; and the date of the inspection.
RETENTION: 4 anniversary years after inspection.

FIRE SAFETY INSPECTION RECORDS: VIOLATIONS
Item #75
This record series documents fire safety inspections on businesses or commercial buildings in cases where violations are found, including new inspections, re-inspections or following a complaint. The records may consist of, but are not limited to, the owner's contact information; the type of business; information about the fire suppression and notification devices; occupant load; violations found; the inspector's name and number; and the date of the inspection.
RETENTION: 10 anniversary years after last violation.

FIRE SAFETY REVIEW RECORDS: BUILDING PLANS
Item #76
This record series consists of fire safety reviews of building plans and specifications to ensure compliance with the Florida Fire Prevention Code and the Life Safety Code. Fire safety inspections are required to be conducted prior to issuance of any permit for construction, erection, alteration, modification, repair or demolition of any building. The series may include, but is not limited to, proposed and corrected architectural or design blueprints; schematics for adherence to the fire code; corrections to conform to the fire code; and correspondence including form letters. A copy of the inspection is filed with the county building department and retain in accordance with the retention for architectural/building plans. Records are created pursuant to Section 553.79(2), Florida Statutes, Permits; applications; issuance; inspections.
RETENTION: Retain until obsolete, superseded or administrative value is lost.

FIRE SAFETY REVIEW RECORDS: PLANS
Item #61
This record series consists of reviews of fire safety plans submitted by various businesses. The series may include, but is not limited to, requests for reviews, copies of fire safety plans, notification of improvements needed and any applicable correspondence and supporting documentation.
RETENTION: 5 fiscal years.

INVESTIGATION RECORDS: ARSON - CAPITAL/LIFE FELONY
Item #4
This record series consists of information with respect to an identifiable person or group of persons in the course of conducting an investigation of arson constituting a capital or life felony. The series may include, but is not limited to, the location, date, time, type of arson, equipment used, hydrant used, damage estimate of the fire, deaths which might result from the fire, firefighter reporting for the fire and any comments made concerning the details of the fire. The series may also include a copy of the police report and photographs of the scene. Retention is pursuant to Section 775.15, Florida Statutes, Time limitations; general time limitations: exceptions.
RETENTION: 100 anniversary years.
INVESTIGATION RECORDS: ARSON - NON-CAPITAL/LIFE FELONY  Item #5
This record series consists of information with respect to an identifiable person or group of persons in the course of conducting an investigation of arson constituting a non-capital or non-life felony. The series may include, but is not limited to, the location, date, time, type of arson, equipment used, hydrant used, damage estimate of the fire, firefighter reporting for the fire and any comments made concerning the details of the fire. The series may also include a copy of the police report and photographs of the scene. Retention is pursuant to Section 775.15, Florida Statutes, Time limitations; general time limitations; exceptions.
RETENTION: 8 anniversary years.

INVESTIGATION RECORDS: DAMAGE TO FIRE DETECTION/SUPPRESSION MECHANISMS  Item #62
This record series documents the reporting and investigation of willful and malicious damage, destruction, removal or tampering with fire hydrants, extinguishers, hoses, smoke detectors, sprinkler systems or other fire detection or suppression systems. The series may include, but is not limited to, photographs of the damage, depositions, reports and other supporting documentation. Retention is pursuant to Section 775.15, Florida Statutes, Time limitations; general time limitations; exceptions.
RETENTION: 6 anniversary years after offense committed.

MINIMUM STANDARDS COURSE: ROSTER OF STUDENTS  Item #63
This record series consists of rosters of students attending the firefighter minimum standards training course. The series may include, but is not limited to, rosters of students and applicable supporting documentation such as release of building to burn, affidavits for use of other facilities or equipment, pre-certification documentation and verification of documentation received. Records created pursuant to Rule 69A-37.057, Florida Administrative Code, Roster of Students.
RETENTION: 3 fiscal years.

RUN REPORTS: NON-EMERGENCY  Item #39
This record series consists of reports of non-emergency runs where no medical treatment or service is rendered. See General Records Schedule GS4 for Hospitals, Medical Facilities, and Providers, for run reports where medical attention was provided by Emergency Medical Technicians (EMT), Emergency Medical Services (EMS), Air-Medical Providers or paramedics.
RETENTION: 4 anniversary years.

SAFE PLACE PROGRAM RECORDS  Item #66
This record series documents individuals seeking immediate help and safety at fire stations participating in the Safe Place program. This program designates various businesses and public offices as safe places that children or adults can go to when they are in danger or lost. The series may include, but is not limited to, the time, date, and name of person who is asking for help; the nature of the problem; the agency or parties contacted to provide assistance; the time of parties’ arrival and the final outcome.
RETENTION: 4 anniversary years.

SUPPLEMENTAL COMPENSATION PROGRAM: ENROLLMENT/REMOVAL RECORDS  Item #77
This record series documents firefighters’ enrollment, re-entry and removal from the state’s Supplemental Compensation Program. The series may include, but is not limited to, applications for initial entry and re-entry, requests for upgrades, eligibility determinations and supporting documentation. The series includes applicants determined ineligible to participate. Records created pursuant to Rule 69A-37.086, Florida Administrative Code, Application for Eligibility Determination.
RETENTION: 5 fiscal years after removal, graduation or termination from program or ineligible determination.

SUPPLEMENTAL COMPENSATION PROGRAM: QUARTERLY REPORTS  Item #69
This record series consists of quarterly reports of compensation paid to firefighters for educational incentive. The reports are submitted to the Department of Financial Services, Bureau of Fire Standards and Training for reimbursement pursuant to Section 633.422, Florida Statutes, Firefighters; supplemental compensation. The information includes each firefighter’s name, Social Security number, amount paid, total amount paid for quarter, and name of fire department or employing agency.
RETENTION: 5 fiscal years from date of report.
TOXIC SUBSTANCES LISTS
This record series documents work areas where toxic substances are present. The records document such information as the location of the toxic substance and the chemical and common name of each substance. The series also includes the Material Safety Data Sheets (MSDS) for each substance.

RETENTION: 4 anniversary years after receipt.
